MANAGEMENT DISCUSSION AND ANALYSIS

PROPERTY MARKET REVIEW

In the first half of 2024, the Chinese economy experienced a continuous rebound despite several challenges including insufficient effective demand and high operating pressure on enterprises. A trend of slow recovery generally sustained in the property sector. The overall market still faced immense downward pressure in the first half, evidenced by cautious investment outlook, weak new property transactions and an accelerating downward trend in property prices. During the period, positive signs continued to show on the policy front. In its April meeting, the Politburo of China set the policy direction for the property market. The meeting proposed to continuously prevent and mitigate property risks, and coordinate efforts to research policy measures for reducing housing inventories and optimising new housing. The policy focus shifted towards destocking and market stabilisation. According to statistics, a number of provincial and municipal easing policies on property purchases were implemented in the first half. These included the new property policy issued in May in Shanghai, which optimised purchase limits on residential housing and credit policies, and the cancellation of purchase limits within the Second Ring, along with the introduction of detailed rules on "trade-ins" in Xi'an. The continuous relaxation of purchase limits and favourable credit policies have restored market expectations to a certain extent. With the implementation of these policies, subsequent policy changes are expected to inject new impetus for recovery in the industry.

In the first half of 2024, property developers remained cautious in land acquisition, with a continued decline in financing scale. Both liquidity and credit risks persisted on the market. According to statistics, the total bond financing amount for property developers was approximately RMB282.29 billion, down 26.1% year-on-year. 2024 remains a peak period for debt repayment among property developers. The amount of bonds maturing in the first half amounted to RMB279.9 billion, with more than RMB130.0 billion due in each of the first and second quarter. Given the significant cash flow pressure, property developers will require some time to restore their financing capabilities in the future.

BUSINESS REVIEW

Overview

In the first half of 2024, the Group remained steadfast and pragmatic in pursuing progress while maintaining stability amidst a complicated external environment. With a focus on premium projects in core cities, the Group timely adjusted our operating strategies and ensured the smooth delivery of numerous projects. During the period, the continuing sales of our flagship projects, including Originally in Xi'an, Summitopia in Tianjin, Felicity Mansion in Yantai and Ocean One in Shanghai, brought in stable revenue and profits for the Group. Meanwhile, the Group was committed to expanding to the first- and second-tier core cities, with a focus on Shanghai. In support of the call for "guaranteeing project delivery", the Group upheld the policy of placing dual focus on leasing and sale. The Group diversified into new industry formats while ensuring steady operation in order to expand our development opportunities in a multi-faceted manner.

Contract Sales

During the six months ended 30 June 2024, the contract sales of the Group decreased 54.4% year-on-year to RMB2,283,730,000 (six months ended 30 June 2023: RMB5,009,840,000). Total contract sales in terms of G.F.A. were 98,000 sq.m., down 42.0% year-on-year, while the total average selling price dropped to approximately RMB23,300 per sq.m. This was mainly attributable to the higher proportion of sales in second-tier cities during the period. Originally in Xi'an, Summitopia in Tianjin, Felicity Mansion in Yantai and Ocean One in Shanghai were the Group's principal projects for sale, which accounted for approximately 39.7%, 35.9%, 6.8% and 6.4% respectively of the total contract sales during the period.

Property Development

During the six months ended 30 June 2024, the Group had nine projects with a total G.F.A. of 1,933,000 sq.m. under construction, which primarily included TODTOWN and Ocean Times in Shanghai, Felicity Mansion in Yantai and Summitopia in Tianjin. The Group delivered a total G.F.A. of 78,600 sq.m., which mainly comprised Cloud Vision in Shanghai, Felicity Mansion in Yantai, Originally in Xi'an and Urban Cradle in Shanghai.

In the first half of 2024, with the consecutive introduction of key supportive property policies, several of the Group's residential projects achieved good presales performance with total contract sales reaching approximately RMB2.284 billion. In particular, Originally in Xi'an reaped a contract sales revenue of approximately RMB910 million and became the largest sales contributor for the Group. Besides, Summitopia in Tianjin, Felicity Mansion in Yantai and Ocean One in Shanghai also performed well in sales.

Investment Properties

During the six months ended 30 June 2024, the Group had a number of completed commercial projects in seven major developed cities, namely Shanghai, Beijing, Tianjin, Chongqing, Shenyang, Xi'an and Shenzhen. The investment projects held by the Group had a total G.F.A. of approximately 1,126,000 sq.m. During the period, the overall rental income of the Group increased 1.5% year-on-year to HK\$381,338,000 (first half of 2023: HK\$375,736,000).

The Group stayed in line with the central policy of quickening the "Three Major Projects". By maintaining a dual focus on leasing and sale, the Group continued to promote the development of our residential leasing operation. Our long-term rental apartment projects in Shanghai, namely Utime XuHui, Utime Xinzhuang and Cheng Kai Chuanxinqu, formed part of our key assets. The Jinxiang Project in Shanghai (Utime XuHui) commenced operations in 2022, while our benchmark project, Utime Xinzhuang, which was completed in 2023 with a G.F.A. of 125,879 sq.m., achieved a 97% occupancy rate. Cheng Kai Chuanxinqu in Shanghai, with a G.F.A. of 118,458 sq.m., will be completed in 2024 and is expected to contribute stable rental income for the Group.

Land Bank

During the six months ended 30 June 2024, the Group's land bank was developed into 28 property projects located in ten major cities in China, including Shanghai, Beijing, Tianjin, Xi'an, Chongqing, Wuxi, Shenyang, Yantai, Shenzhen and Wuhan, and comprised medium to high class residential and commercial properties, most of which were completed or still under development. The Group has a land bank with a future saleable planned G.F.A. of approximately 3,406,000 sq.m. to support its development for the next three to five years.

In the first half of 2024, faced with significant debt repayment pressure, most property developers adopted a conservative investment strategy and were prudent in land acquisition, focusing on prime land parcels in core cities, particularly those with a high price-performance ratio in Shanghai, Hangzhou and Beijing. The Group remained cautiously open-minded and persisted in the strategy of focusing on the metropolitan areas in Shanghai as well as other first- and second-tier core cities. The Group aimed to strengthen our existing land reserves and timely expand our premium land bank based on development needs while consolidating our business fundamentals, enhancing financial management and optimising our debt structure.

During the six months ended 30 June 2024, the Group made 12 share repurchases and a total of 9,368,000 shares were repurchased, all of which were cancelled on 26 March 2024, at an aggregate purchase price of HK\$3,317,670. The number of repurchased shares accounted for 0.20% of the total issued shares of the Company.

During the period, property sales remained as the Group's main source of revenue and amounted to HK\$2,453,892,000 (six months ended 30 June 2023: HK\$1,271,776,000), accounting for 82.3% (six months ended 30 June 2023: 70.7%) of the Group's total revenue. The gross profit margin was 20.8%, down by 22.1 percentage points year-on-year. This was mainly attributable to the lower proportion of high-margin projects delivered during the period compared to last year and a drop in selling prices due to market conditions during the period.

Investment Property Revaluation

For the six months ended 30 June 2024, the Group recorded a net loss on the revaluation of investment properties amounting to HK\$210,465,000, mainly due to the decrease in fair value of ShanghaiMart and Urban Development International Tower in Shanghai.

Loss for the Period

During the six months ended 30 June 2024, owing to a reduction of gross profits and fair value loss on investment properties, the Group recorded a loss of HK\$188,301,000, representing a significant improvement of 41.7% as compared to that of the last year (six months ended 30 June 2023: HK\$323,180,000). Liquidity and Capital Resources

The Group manages its capital to ensure that entities within the Group will be able to operate on a going concern while maximising the return to shareholders through optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes bank and other borrowings, cash and cash equivalents, and equity attributable to owners of the Company (comprising issued share capital and reserves).

As at 30 June 2024, bank balances and cash of the Group were HK\$5,362,707,000 (31 December 2023: HK\$5,985,911,000). The net debt to total equity of the Group (net debt (total bank and other borrowings less bank balances and cash and restricted and pledged bank deposits) to total equity) increased from 58.4% as at the end of last year to 65.1%. The current ratio was 1.3 times (31 December 2023: 1.4 times).

As at 30 June 2024, the total borrowings of the Group including bank borrowings, other borrowings and advanced bonds amounted to HK\$18,229,744,000 (31 December 2023: HK\$18,002,416,000), which included the borrowings of Shanghai Industrial Investment (Holdings) Company Limited of HK\$250,000,000 and the shareholders' borrowings of Shanghai Industrial Holdings Limited of HK\$569,814,000 (31 December 2023: shareholders' borrowings of Shanghai Industrial Holdings Limited of HK\$1,068,454,000). The Group will continue to optimise HKD denominated borrowings based on our business needs.

The Group maintained sufficient cash balance during the period. The management believes that the Group's financial resources and future revenue will be sufficient to support the current working capital requirements and future expansion of the Group.

Foreign Exchange Risks

During the period, most of the Group's revenue and operating costs were denominated in Renminbi. Except for bank deposits and borrowings denominated in foreign currencies of certain companies under the Group, the Group's operating cash flow or liquidity is not directly subject to any other material exchange rate fluctuations. The Group did not enter into any foreign exchange hedging arrangements to control its exposure to exchange rate fluctuations as at 30 June 2024. However, the Group will adopt necessary measures whenever appropriate to minimise the impact arising from exchange rate fluctuations.

HUMAN RESOURCES AND REMUNERATION POLICIES

As at 30 June 2024, the Group employed 751 employees (including Hong Kong and PRC offices). The remuneration policies for the employees of the Group are determined according to the performance, qualification, experience and competence of the employees. The emoluments of the directors of the Company (the "Directors") are determined by the remuneration committee of the Company, having regard to the operating results of the Group, individual performance and comparable market statistics. Staff benefits include discretionary bonus payments which are linked to the profitability of the Group and individual performances and contributions to the Mandatory Provident Fund Schemes.

During the six months ended 30 June 2024, the Group provided training programs relating to work to employees. Activities aiming at building up team spirit were regularly organized for employees, so as to enhance the human capital of the Group and the sense of belonging of the staff.

OUTLOOK

Government support for the property market has continued to strengthen in recent years. Nevertheless, the market generally believes the industry is still undergoing a period of bottom adjustment. Looking ahead to the second half of 2024, the anticipated insignificant improvement in housing price adjustments and uncertain increases in residents' income will exert downward pressure on the property industry. Operating and financing risks among property developers will persist. In July, the third plenary session of the 20th Central Committee of the Communist Party of China set the reform pathway and future direction for property development. It reiterated the previous lenient policy approach and made important deployments on several fronts, including structuring a new property development model and protecting diversified residential demands through multiple channels. On the other hand, the market expects the "destocking" and "market stabilisation" policies of the central government will further work their way through the market and effectively revive the industry and encourage the stable recovery of the property market, thereby accelerating the creation of a new property development model.

The Group is well aware of the challenges posed by the current economic environment and property market conditions to property developers. Under this context, the Group will remain committed to development, strengthen our foundation, pursue progress while maintaining stability, and proactively address challenges. With a continuous focus on the metropolitan areas in Shanghai while expanding to the Yangtze River Delta and other first- and second-tier core cities, the Group will conduct periodic reviews to increase our land reserve while cautiously expanding our investment projects to strive for the stable development of our business operations. As we move into the second half of 2024, the Group is confident in achieving a general improvement in our annual results, driven by steady progress in project delivery. Furthermore, the Group will strengthen our financial management, maintain a healthy and sustainable cash flow, continuously optimise the debt profile of the Company, and collaborate with local governments to facilitate the stable and robust development of the property market by leveraging on our background as a state-owned enterprise. The Group will stay attuned to changes in the capital market and adopt timely solutions that are beneficial to the long-term robust development of the Company, so as to maximise returns for the shareholders.
