PROFIT WARNING

This announcement is made by Jianzhong Construction Development Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong).

The board (the “**Board**”) of directors (the “**Directors**”) of the Company wishes to update the shareholders (the “**Shareholders**”) and potential investors of the Company that, based on the preliminary review by the Board of the unaudited consolidated management accounts (the “**Management Accounts**”) of the Group for the five months ended 31 May 2022 (the “**Relevant Period**”), which have not been reviewed or audited by the independent auditors and/or audit committee of the Company, and the information currently available to the Board, the Group is expected to record a net loss for the Relevant Period of approximately RMB17.9 million (five months ended 31 May 2021: net profit of approximately RMB18.9 million). The Board considers that the said expected net loss for the Relevant Period was primarily attributable to:

- i) the increase in impairment losses on assets arising from contracts with customers

The Board are aware of a series of negative news over the financial conditions of certain real estate developers in the PRC. In this regard, and taking into account the recent repayment records, the Board decided to make additional impairment on the trade receivables, bills receivable and contract assets during the Relevant Period, to reflect the weakened liquidity conditions of the property market.

- ii) the decrease in revenue and gross profit from construction service

In view of the recent market sentiment of the real estate sector in the PRC, the Group has adopted a more prudent approach to tender for new construction projects, which led to the decrease in revenue from construction service during the Relevant Period.

Pursuant to relevant accounting standards and policies adopted by the Group, construction revenue is recognised progressively over time using the output method, based on direct measurements of the value of contract work performed, whilst costs for construction services are expensed in the period in which they are incurred. During the Relevant Period, a relatively high portion of construction projects of the Group, as compared to the corresponding period in 2021, went through completion phases, in which a relatively lower gross profit margin is generally recorded since revenue has been recognised in earlier stage of the projects according to the progress certificates issued by customers while certain unbillable costs, such as inspection costs and costs to make good of defects in relation to works done by the Group in such projects, were incurred in the completion phases.

The Company is in the process of preparing the interim results of the Group for the six months ended 30 June 2022. The information contained in this announcement is only based on the information currently available to the Company and the preliminary review by the Board of the Management Accounts for the Relevant Period, which have not been reviewed by the independent auditors and/or the audit committee of the Company. The actual interim results of the Group for the six months ended 30 June 2022 may differ from what is disclosed in this announcement.

Further announcement in respect of this matter will be made by the Company as when appropriate in accordance with the Listing Rules.

Shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company and to read carefully the announcement of interim results of the Group for the six months ended 30 June 2022, which is expected to be published in August 2022 in accordance with the requirements of the Listing Rules.
