LETTER FROM THE BOARD

C. Application for Listing of the Subscription Shares

The Company will make an application to the Stock Exchange for the listing of, and permission to deal in, the Subscription Shares on the Stock Exchange.

D. Effect of the Proposed Subscription on the Shareholding Structure of the Company

The following table illustrates the shareholding structure of the Company as at the Latest Practicable Date and immediately following the completion of the Proposed Subscription (assuming the Maximum Subscription Shares are subscribed and there are no other changes to the total issued Shares of the Company prior to the completion of the Proposed Subscription):

	As at the Latest Practicable Date		Immediately following the completion of the Proposed Subscription	
	<i>Number of Shares held</i>	<i>Percentage of total issued Shares</i>	<i>Number of Shares held</i>	<i>Percentage of total issued Shares</i>
	Unicom Group BVI ¹	8,082,130,236	33.75%	8,082,130,236

Public Shareholders	<u>6,139,950,827</u>	<u>25.64%</u>	<u>6,139,950,827</u>	<u>20.07%</u>
Total issued Shares	<u><u>23,947,081,083</u></u>	<u><u>100.00%</u></u>	<u><u>30,598,124,345</u></u>	<u><u>100.00%</u></u>

On 11 July 2000, the Stock Exchange granted a waiver from strict compliance with the requirements under Rule 8.08 of the Listing Rules to the Company, subject to the condition that the public float of the Company will be maintained at no less than 10% of the total issued Shares of the Company. Based on publicly available information and so far as Directors are aware, immediately following completion of the Proposed Subscription, the Company will continue to satisfy the minimum public float of 10% of the Shares.

Unicom BVI and Unicom Group BVI are presumed to be parties acting in concert in respect of their aggregate shareholding in the Company pursuant to class (1) of the definition of “acting in concert” under the Takeovers Code as they are both ultimately controlled by Unicom Group. Therefore, as the aggregate shareholding in the Company held by Unicom BVI and Unicom Group BVI, being persons acting in concert, exceeds 50%, the acquisition of the Subscription Shares pursuant to the Proposed Subscription by Unicom BVI will not result in a mandatory general offer obligation on Unicom BVI under Rule 26 of the Takeovers Code.

LETTER FROM THE BOARD

E. Use of Proceeds

The maximum gross proceeds of the Proposed Subscription will be HK\$88,059.81 million (equivalent to approximately RMB74,953.87 million). The maximum net proceeds of the Proposed Subscription, after deduction of relevant expenses, will be approximately HK\$88,056.81 million (equivalent to approximately RMB74,951.32 million), representing a net issue price of approximately HK\$13.24 (equivalent to approximately RMB11.27) per Subscription Share.

Assuming the Maximum Subscription Shares are issued, the Company intends to use the proceeds from the Proposed Subscription as follows:

- (a) approximately HK\$46,777.96 million for upgrading the 4G network capabilities of the Company, which involves the upgrading of the transmission capacity of existing nationwide 4G network, construction of new 4G stations, improving the interoperation with 5G network and construction of transmission network in connection with the interoperation;
- (b) approximately HK\$23,011.85 million for technology validation and enablement and launch of trial programs in relation to the 5G network, which involve research, development and validation of 5G network related technologies, construction of 5G trial stations and establishment of basic 5G network capability;
- (c) approximately HK\$2,728.01 million for developing innovative businesses, which involves the establishment of specialised teams and business platforms to back up the development of cloud computing, big data, the Internet of Things, industrial Internet, payment finance, video and other businesses; and
- (d) approximately HK\$15,538.98 million for the repayment of the outstanding principal amount of loans obtained from the following banks:
 - Industrial and Commercial Bank of China (aggregate principal amount of RMB2,000 million, maturing in 2018),
 - Agricultural Bank of China (aggregate principal amount of RMB14,350 million, maturing in 2018),
 - China Construction Bank (aggregate principal amount of RMB5,100 million, maturing in 2018),
 - Bank of China (aggregate principal amount of RMB16,900 million, maturing in 2017 and 2018), and
 - China Merchants Bank (aggregate principal amount of RMB1,000 million maturing in 2018).

LETTER FROM THE BOARD

Depending on the date of completion of the Proposed Subscription and the maturity dates of the above bank loans, if the proceeds allocated for the repayment of the outstanding principal amount of the above bank loans are insufficient to repay such bank loans in full, the Company will use its working capital to repay the balance of the outstanding principal amount of such bank loans. Any proceeds remaining after the repayment of the outstanding principal amount of such bank loans in full will be used by the Company for its general working capital purposes.

The use of proceeds will be proportionately adjusted if less than the Maximum Subscription Shares are issued pursuant to the Proposed Subscription.

F. Reasons for, and Benefits of, the Proposed Subscription

The Proposed Subscription is part of the mixed ownership reform plan being implemented by Unicom Group. Through integrated planning on the mixed ownership reform plan, Unicom A Share Company actively introduced strategic investors which are engaged in businesses that are highly correlated with and complementary to the principal businesses of Unicom A Share Company and which reduced the state-owned shareholding in Unicom A Share Company, so as to progress with the mixed ownership reform. Through implementing the mixed ownership reform plan, Unicom A Share Company expects to further optimize its corporate governance in accordance with the market-oriented principles, focus on the development of its principal businesses, establish an innovative business model and further develop innovative businesses, so as to improve and enhance its overall efficiency and competitiveness and to achieve its strategic goals.

In addition, following the completion on the Proposed Subscription, the Company's net assets will increase and its liabilities-to-assets ratio will decrease. Accordingly, the Company will be able to carry out more investment, financing and research and development activities. Upon the projects invested and developed using the proceeds received from the Proposed Subscription generating returns, the Company expects to increase its revenue and profitability, which in turn will contribute to the Company's long-term development.

The Company also believes that it will derive the following benefits from the Proposed Subscription:

- (a) the Subscription Price represents a 9.97% premium to the closing price of the Shares as at the date of the Share Subscription Agreement, which is more favourable than the price that the Company is likely to obtain from independent third party investors; and
- (b) the Company will incur lower costs as well as derive other benefits by issuing the Subscription Shares as compared to other means of fund raising, including (i) debt-financing instruments, which would incur additional finance expenses and increase the gearing ratio of the Company and (ii) an open offer or a rights issue, which would incur additional expenses, such as underwriting commissions and involve longer period of time.

LETTER FROM THE BOARD

Based on the foregoing, the Directors (excluding the independent non-executive Directors, whose opinion is included in the section headed “Letter from the Independent Board Committee” in this circular) consider that the terms of the Share Subscription Agreement are fair and reasonable, and in the interests of the Company and the Shareholders as a whole.

The executive Directors, being Mr. Wang Xiaochu, Mr. Lu Yimin, Mr. Li Fushen and Mr. Shao Guanglu, who also hold executive positions with Unicom A Share Company, have voluntarily abstained from voting on the Board resolution to approve the Share Subscription Agreement and the Proposed Subscription. As the other Directors do not have material interest in the Proposed Subscription, they have not abstained from voting on the Board resolution to approve the Share Subscription Agreement and the Proposed Subscription.

3. FUND RAISING ACTIVITY OF THE COMPANY IN THE PAST 12 MONTHS

The Company did not conduct any fund raising activity through issue of equity securities in the 12 months immediately before the Latest Practicable Date.

4. LISTING RULES IMPLICATIONS

As at the Latest Practicable Date, Unicom BVI held 9,725,000,020 Shares, representing approximately 40.61% equity interest in the Company and therefore is a connected person of the Company under Chapter 14A of the Listing Rules. Accordingly, the Proposed Subscription constitutes a connected transaction of the Company and is subject to the reporting, announcement and independent shareholders’ approval requirements under the Listing Rules.

In accordance with the Listing Rules, the voting on the resolution in relation to the Share Subscription Agreement at the EGM will be conducted by way of a poll. As Unicom BVI, Unicom A Share Company and Unicom Group BVI are all ultimately controlled by Unicom Group, Unicom BVI and Unicom Group BVI, which hold 9,725,000,020 Shares and 8,082,130,236 Shares in the Company, representing approximately 40.61% and 33.75% of the total issued Shares, respectively, will be regarded as having a material interest in the Proposed Subscription and will abstain from voting on the resolution referred to above. Unicom Group BVI is also deemed under the SFO to be interested in 225,722,791 Shares, which are held by Unicom Group BVI as trustee on behalf of a PRC Shareholder. As such PRC Shareholder is not an associate of Unicom Group BVI under the Listing Rules, Unicom Group BVI can exercise the voting rights in respect of such Shares on behalf of and in accordance with the instruction of the PRC Shareholder. Unicom Group BVI will not exercise the voting rights in respect of such Shares on behalf of the PRC Shareholder if it has not received voting instructions from such PRC Shareholder.

The Independent Board Committee, comprising all of the independent non-executive Directors, has been established to advise the Independent Shareholders, and ING has been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders, in each case, on terms of the Proposed Subscription.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

As shown above, China Unicom incurred decrease in revenue, operating profit and profit for the year from 2014 to 2016. For the year ended 31 December 2016, the Company's revenue decreased by 1.0%, of which service revenue stopped deteriorating and went up by 2.4%, but sales of telecommunications products declined by 20.5%. Compared with 2014, the revenue in 2015 decreased by 2.7%, of which the service revenue accounted for RMB235.3 billion, down by 3.9%, and the revenue from sales of telecommunications products was RMB41.8 billion, up by 4.9%. In addition, the Company's operating expenses increased significantly during the last three years, primarily due to the transformation of the tower operation model and expanded network scale, thus increasing usage fee of telecommunication towers.

For the year ended 31 December 2016, the operating profit declined by 75.0% and the profit attributable to equity shareholders declined by 94.1%, which was primarily due to the net gain on disposal of telecommunication towers amounted to RMB9.3 billion in 2015. Excluding the net gain on disposal of telecommunication towers, profit for the year decreased by RMB3.0 billion as compared with 2015.

The operating profit in 2015 amounted to RMB10.8 billion, down by 43.1% as compared with 2014. The decrease in operating profit in 2015 was mainly due to the increase in network, operation and support expenses and in depreciation and amortization. Depreciation and amortization in 2015 had increased 3.9% compared with 2014 due to the accelerated network construction for 4G and fixed-line broadband. Network, operation and support expenses increased 11.8% compared with 2014 since the operation model regarding the use of telecommunications towers changed from self-operation to payment of usage fee to China Tower Corporation Limited, and the Company expanded its network scale which led to the increase in utilities charges and properties rental expenses.

For the six months ended 30 June 2017, the Company reported revenue of RMB138.2 billion, which decreased by 1.5% compared with the first half year of 2016. Although the revenue declined, the operating profit and profit for the year increased by 39.1% and 69.6%, respectively. The primary reasons are cost savings on network, operation and support expenses and telecommunication products sold.

5. Reasons for and Benefit of the Proposed Subscription

As stated in the Circular, the Proposed Subscription is part of the Mixed Ownership Reform Plan being implemented by China Unicom Group. Through integrated planning on the Mixed Ownership Reform Plan, Unicom A Share Company introduced strategic investors which are engaged in businesses that are correlated with and complementary to the principal businesses of Unicom A Share Company and which reduced the state-owned shareholding in Unicom A Share Company, so as to progress with the mixed ownership reform. Through implementing the Mixed Ownership Reform Plan, Unicom A Share Company expects to further optimize its corporate governance in accordance with the market-oriented principles, focus on the development of its principal businesses, establish an innovative business model and further develop innovative businesses, so as to improve and enhance its overall efficiency and competitiveness and to achieve its strategic goals. Strategic investors joining as shareholders of Unicom A share Company are internet companies in China, industrial verticals, financial institution, industry group and specialized funds.

In addition, following the completion on the Proposed Subscription, the Company's net assets will increase and its liabilities-to-assets ratio will decrease. Accordingly, the Company will be able to carry out more investment, financing and research and development activities. Upon the projects invested and developed using the proceeds received from the Proposed Subscription generating returns, the Company expects to increase its revenue and profitability, which in turn will contribute to the Company's long-term development.

The Company also believes that it will derive the following benefits from the Proposed Subscription:

- (a) the Subscription Price represents a 10.0% premium to the closing price of the Shares as at the date of the Share Subscription Agreement, which is more favourable than the price that the Company is likely to obtain from independent third party investors; and
- (b) the Company will incur lower transaction costs as well as derive other benefits by issuing the Subscription Shares as compared to other means of fund raising, including (i) debt-financing instruments, which would incur additional finance expenses and increase the gearing ratio of the Company and (ii) an open offer or a rights issue, which would incur additional expenses, such as underwriting commissions and involve longer period of time.

The mixed ownership reform in China allows more state-owned parties and other ownership parties to develop into a mixed ownership economy. The reform intends to introduce strategic investors, reduce the proportion of state-owned stake and release part of the state-owned enterprises' shares to other state-owned capital and non state-owned capital. Through promoting the mix ownership reform, state-owned enterprises are expected to establish a market-oriented enterprise system and a new corporate governance mechanism, thus accelerating the development of basic businesses and innovative businesses, to realise fully state-owned enterprises' strategic objectives, to form a balanced market competitive landscape, and to contribute to the national economy and social society.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

We note that pursuant to the Mixed Ownership Reform Plan, Unicom A Share Company will conduct a non-public offering to raise not more than RMB61.725 billion. The net proceeds raised from the non-public offering will be used by Unicom A Share Company to subscribe for the new shares of Unicom BVI which in turn uses this to subscribe for the Subscription Shares. Unicom Group, a shareholder of Unicom BVI, will also participate in the capital increase exercise of Unicom BVI to raise funds for the Proposed Subscription.

As stated in the annual report of the Company for the year ended 31 December 2016, the Group had capital commitments of RMB48,759million as at 31 December 2016. Under the current competitive environment, such as the speed upgrade and tariff reduction, real-name registration and increased competition, capital injection to the Company is needed for improving operating income and net income by promoting existing businesses and developing new projects. The Proposed Subscription will allow the Company to raise maximum net amount of HK\$88,057 million (equivalent to approximately RMB74,951 million).

We further note that the Subscription Shares will be issued at a premium of approximately 10.0% over the Shares' closing price on the date of the Share Subscription Agreement, and premia of approximately 10.9% to 29.7% over the Last Undisturbed Trading Day closing price, the 5-consecutive day, 10-consecutive day, 20-consecutive day, 30-consecutive day, 60-consecutive day, 90-consecutive day and 180 consecutive day the Shares' average closing prices prior to and including the Last Undisturbed Trading Day. The Subscription Shares will also be issued at a premium of 19.7% to the NAV of HK\$11.06 (equivalent to RMB9.61 at exchange rate of RMB1 = HK\$1.1512 as of 30 June 2017) as at 30 June 2017. The expenses for the Proposed Subscription is estimated to amount to less than 0.004% of the maximum gross proceeds of the Proposed Subscription. We are of the view that the Proposed Subscriptions is on balance a cost effective way to satisfy the Company's need for funding.

The current ratio (being the ratio of current assets over current liabilities) of the Company was approximately 0.29. The quick ratio (being the ratio of current assets excluding inventory over current liabilities) was approximately 0.29. With the receipt of the maximum net proceeds from the Proposed Subscription of approximately RMB74,951 million, the working capital deficit of the Company would be decreased to approximately RMB158,486 million. The current assets of the Company would be increased and hence the current ratio of the Company would be increased to approximately 0.50, and the quick ratio would be increased to approximately 0.49.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

CONCLUSION AND RECOMMENDATION

Having analyzed and considered the principal factors as set out in this letter above, we would draw your attention to the following key factors, which should be read in conjunction with, and interpreted in, the full context of the Circular, in arriving at our conclusion:

- (1) the Proposed Subscription will allow the Company to raise funds with lower costs as compared to other means of fund raising such as bank borrowings which would incur additional finance expenses, open offers or rights issues which would incur additional expenses, such as underwriting commission;
- (2) the Share price has increased by 42.3% over the last 12 month period prior to and including the Last Undisturbed Trading Day. The Subscription Shares will be issued at a premium of 10.0% to the price as at the date of the Share Subscription Agreement;
- (3) the Maximum Subscription Shares represents 27.8% of the existing share capital of the Company and will dilute the shareholding of existing Independent Shareholders. However, considering the benefits of Proposed Subscription, the dilution on the shareholding interest is acceptable;
- (4) the net proceeds of the Proposed Subscription are intended to improve the 4G network capabilities, construct 5G network infrastructure, increase the scale of innovative services and repay certain outstanding principal amount of loans; and
- (5) the Proposed Subscription will improve the financial position of the Company by (i) increasing the equity to lower the leverage; (ii) providing more current asset to promote liquidity.

Based on the above, we are of the opinion that while the Proposed Subscription is not in the ordinary and usual course of business of the Group, the terms of the Share Subscription Agreement are fair and reasonable, on normal commercial terms, and in the interests of the Company and its Shareholders as a whole so far as the Company and the Independent Shareholders are concerned. Therefore, we advise the Independent Shareholders and the Independent Board Committee to recommend the Independent Shareholders, to vote in favor of the resolution to be proposed at the EGM.

Yours faithfully,

For and on behalf of
