CHINA UNICOM (HONG KONG) LIMITED
中國聯合網絡通信(香港)股份有限公司
(Incorporated in Hong Kong with limited liability)
(Stock Code: 762)

Operational Statistics for the Fourth Quarter of 2025

China Unicom (Hong Kong) Limited (the "Company") firmly adheres to the development keynote of "Preserve and Innovate, Steady and Far-reaching", focusing on the core arenas of "connectivity", "computing power", "service", and "security". It strives to create differentiated advantages in order to promote new achievements in the high-quality development of the Company.

The board of directors (the "Board") of the Company discloses the operational statistics of the Company and its subsidiaries (collectively the "Group") for the fourth quarter of 2025.

The operational statistics for the fourth quarter of 2025 are as follows:

	December 2025
I. Ubiquitous Connectivity	
Aggregate number of connectivity subscribers	1,254.713 million
Aggregate number of 5G network subscribers	232.180 million
Aggregate number of Internet-of-things terminal connections	723.111 million
II. Scale Application of 5G	
Number of customers served by virtual 5G industry private networks	23,520
III. Smart Service	
Resolution ratio of customer cases by smart customer service in the current month	99.0%
Smart customer service ratio in the current month	85.6%
IV. Technological Innovation	
Cumulative number of patents granted in the current year	860

Notes:

1. Aggregate number of connectivity subscribers = aggregate number of mobile billing subscribers + aggregate number of fixed-line broadband subscribers + aggregate number of fixed-line local access subscribers + aggregate number of Internet-of-things terminal connections + aggregate number of networking leased line subscribers.
2. To better reflect its 5G development, the Company has replaced the number of 5G package subscribers with the number of 5G network subscribers for the purposes of periodical disclosures. 5G network subscribers are mobile subscribers who have used the 5G network in the given period.
3. A virtual 5G industry private network is a high-quality private network based on the public 5G network provided to industry customers to satisfy their business and security needs. It is a core carrier for offering differentiated and partially self-operated network services. Virtual 5G industry private network has become a new engine for driving 5G application innovation, enhancing productivity and accelerating digital transformation in vertical industries.
4. Resolution ratio of customer cases by smart customer service = number of satisfactory resolution ratings / number of post-service ratings * 100%. Smart customer service ratio = number of cases resolved by smart customer service / total number of cases.
5. The patents mentioned in the above table are held by China United Network Communications Group Company Limited, the ultimate controlling shareholder of the Company. Such patents can be used by the Group.

Caution Statement

The Board wishes to remind investors that the above operational statistics are based on the Group's internal records. Such statistics may differ from those to be reported in the Group's consolidated financial statements. **Investors are cautioned not to unduly rely on such statistics. In the meantime, investors are advised to exercise caution in dealing in the securities of the Company.**

By Order of the Board
