BACKGROUND INFORMATION ABOUT TARGET ASSETS

The Target Assets are a number of buildings (structures) and equipment owned by the Company (a total of 24 items), including:

1. Buildings (structures): a total of 21 items, including pipe workshop, profile workshop, raw material warehouse, security guard office, cargo yard, floor, water circulation pool, cord covers (channels), heating facilities, water supply system; and
2. Equipment: a total of 3 items, including PVC mixed production line, mixed batching system, and cargo elevator.

The Target Assets are generally in good condition and their daily maintenance remains normal, all of which are accessible as usual without any damage. Fully installed with water and power supply and fire-fighting facilities, the Target Assets are located in a well-developed light industrial park, which is in close proximity to the high-speed rail, railway and urban areas, offering easily accessible transportation.

On 26 May 2020, the Company entered into a lease agreement with its controller Tianye Group in respect of the profile workshop included in the Target Assets, for a lease period from 1 July 2020 to 31 June 2023 at an annual rent of RMB426,000 (including property management fees). None of the remaining Target Assets involve leasing.

FINANCIAL INFORMATION ABOUT TARGET ASSETS

Part of the Target Assets, being profile workshop, are currently leased out for rental income. The net profit (the annual rental income after taking into account all related disbursements for managing the Properties both before and after taxation) attributable to such part of the Target Assets for the financial years ended 31 December 2022 and 31 December 2021 was as follows:

	For the year ended 31 December 2022 (Unaudited) <i>RMB</i>	For the year ended 31 December 2021 (Unaudited) <i>RMB</i>
Approximate net profit before tax	426,000	426,000
Approximate net profit after tax	406,000	406,000

As at 31 December 2022, the unaudited net book value and original book value of the Target Assets were RMB20,312,000 and RMB35,082,000, respectively.

FINANCIAL EFFECTS OF THE DISPOSAL ON THE GROUP

Upon completion of the Disposal, the Company will no longer have any rights or interests in the Target Assets. As a result of the Disposal, the Company is expected to record a gain on disposal of RMB6,399,000, which, after deducting the estimated expenses in relation to the Disposal of approximately RMB300,000, will result in an increase in the Group's actual gain of approximately RMB6,099,000 (before tax), subject to audit.

USE OF PROCEEDS FROM THE DISPOSAL

The proceeds from the Disposal are expected to be used for general working capital of the Company and/or possible business investments.

REASONS AND BENEFITS OF THE DISPOSAL

The holder of the land use rights certificates for the Target Assets is Tianye Company, the controlling shareholder of the Company, which does not meet the requirements of “integration of property and land use right” under the real estate administration laws and regulations. To clarify the ownership of the Target Assets and promote asset preservation and appreciation, the Company will dispose the Target Assets to Tianye Company, so that the said ownership is clarified without any dispute for occupation purposes, ensuring that there will be no substantial impact on the production and operation of the two companies. At the same time, in compliance with the requirements of “integration of property and land use right”, Tianye Company can also successfully complete the real estate ownership certificates for the two plants, ensuring the preservation and appreciation of the state-owned assets.

Save as disclosed above, none of the Directors have material interests in the Disposal.
