Financial Information

Set out below is the audited financial statements of Da Hua Company prepared in accordance with the PRC accounting standards for business enterprises:

	For the year ended 31 December	
	2018 (RMB)	2019 (RMB)
Revenue	19,394,179.45	19,774,089.60
Profit before taxation	110,458.70	2,206,432.39
Profit after taxation	110,458.70	2,206,432.39

According to the audited financial statements of Da Hua Company prepared in accordance with the PRC accounting standards for business enterprises, the audited book value of the net asset of Da Hua Company as at 31 December 2019 was RMB-6,494,400.88. According to the asset valuation report of Da Hua Company prepared by the Appraiser using the asset-based approach, the net asset value of Da Hua Company as at 31 December 2019 was valued at RMB244,916,594.37.

The main reason for the substantially higher appraised value of Da Hua Company over its book value of its net asset is set out as follows:

Da Hua Company is an enterprise with heavy assets as majority of its operating premises is self-owned property. Da Hua Company has higher investment in fixed assets which leads to a higher proportion in book value and the book value of buildings and structures accounted for a higher proportion in its total assets. Taking into account the relatively low rental-to-price ratio of the property market in Shanghai and the fact that the main part of the buildings and constructions of Da Hua Company is an Excellent Historical Building in Shanghai in good condition, which was built before the establishment of the People's Republic of China and went through multiple repairs afterwards, the use of market approach to evaluate the building and structure will more appropriately reflect the value of the property. Meanwhile, a number of similar express hotels exist in the nearby area of Da Hua Company, which has increased the competition and negatively affected the annual profit forecast for the future under the income approach. As a result, the appraised value under the asset-based approach is higher than that under the income approach. For the purpose of this valuation, since the asset-based approach more appropriately reflects the market value of the operating premises owned by Da Hua Company, the valuation under the asset-based approach is the conclusive value.

The Board, including the independent non-executive Directors, is of the view, after considering the reasons above and reviewing the valuation report, that the valuation on Da Hua Company using the asset-based approach by the Appraiser is fair and reasonable.

IV. REASONS FOR AND BENEFITS OF ENTERING INTO THE EQUITY TRANSFER AGREEMENT

The Board is of the view that conducting relevant transaction under the Equity Transfer Agreement can, on one hand, realize the gain from appreciation of value in assets, and on the other hand, is in line with the investment and development strategy of light asset of Jin Jiang Hotels. The Company intends to utilize net proceeds received from the transaction under the Equity Transfer Agreement as the Group's general working capital.

The Board (including the independent non-executive Directors) is of the view that the terms of the Equity Transfer Agreement (including the consideration) are fair and reasonable, on normal commercial terms and in the interests of the Company and its shareholders as a whole, but the transaction is not conducted in the Group's ordinary and usual course of business due to its nature. Mr. Yu Minliang, Ms. Guo Lijuan, Mr. Chen Liming, Mr. Ma Mingju, Ms. Zhou Wei and Mr. Sun Yu, holding positions at Jin Jiang International, have abstained from voting on the relevant resolution of the Board in respect of the approval of the Equity Transfer Agreement. Save as disclosed above, none of the other Directors has a material interest in the transaction or is required to abstain from voting on the relevant resolution of the Board.

The Company expects that it will realize a gain before tax of approximately RMB251,410,995.25, based on the consideration of transfer of 70% equity interest in Da Hua Company, the fair value of and the net book value attributable to the remaining equity interest in Da Hua Company after the transfer.
