REASONS FOR AND BENEFITS OF THE CHANGE IN USE OF PROCEEDS

Up to the date of this announcement, approximately HK\$0.3 million of the Net Proceeds was utilised for expansion into Southeast Asia including participation in various food and beverage exhibitions, on-site factory visits and various meetings with strategic partners to discuss the business opportunities. As at the date of this announcement, the Company is yet to identify suitable acquisition target and to set up the representative offices in the regions as discussed in the Prospectus. The business and economic situation have been seriously affected by COVID-19 in Southeast Asia since January 2020. In order to assess the feasibility of the original plan of expansion into Southeast Asia under the current market condition, the Company has engaged a market consultant to give the Board an overview and understanding of the legal and commercial regimes of relevant markets in Southeast Asia, i.e. Thailand, Malaysia, Vietnam and Sri Lanka, including the macro economic situation, potential growth trend and acquisition targets in Malaysia and Thailand and the feasibility of setting up representative offices in Vietnam and Sri Lanka etc. Having assessed the current market condition with the uncertainty in the economy recovery in Southeast Asia and based on the information available; and in order to strengthen the effectiveness of capital use and of the business operations, the use of Net Proceeds is appropriately adjusted to allow the Group to utilise its financial resources in a more beneficial and effective way. The Board considered that the above changes will not have any material adverse effect on the existing business and operations of the Group and are in the best interests of the Company and its shareholders as a whole.

Save for the changes as disclosed in the table above, there is no other change of the used of Net Proceeds. The Board also confirms that there is no material change in the nature of business of the Group as set out in the Prospectus.
