The condensed consolidated interim financial statements are presented in Hong Kong dollars as the directors of the Company consider that HK\$ is appropriate presentation currency for the users of the Group's condensed consolidated financial statements.

## 2. BASIS OF PREPARATION

The condensed consolidated interim financial statements have been prepared in accordance with the applicable disclosure provisions of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

## 3. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated interim financial statements have been prepared on the historical cost basis, except for certain properties and financial instruments, which are measured at fair values or revalued amounts, as appropriate.

The accounting policies and methods of computation used in the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2016.

In the current interim period, the Group has applied, for the first time, the following amendments ("new and revised HKFRSs") issued by the HKICPA which are effective for the Group's financial year beginning 1 January 2017.

The decrease in the trading business segment profit was mainly due to the decrease in revenue on the trading business segment for the six months ended 30 June 2017 from corresponding period in last year.

The decrease in revenue in trading business segment was mainly attributable to the weakening in market demand for the six months ended 30 June 2017 when compared with corresponding period in last year. The revenue in trading business segment for the six months ended 30 June 2017 arising from customers who are large private enterprises established in People's Republic of China. finance leasing was mainly due to the continuous effort of the Group in reducing the overall operating cost of finance leasing segment. The Board is confident that with the concrete plan of the Government of China to maintain the growth of China's GDP, the finance leasing segment will pick up continuously.
